Safety & Security Training

Tectonic Energy Consulting Inc. Security Services Division has partnered with a First Nation training facility offering in house & on-site training. They are a member of the **Kehewin Cree Nation** and have over 14 years of experience within the Law Enforcement and Security industry.

Effective June 1, 2010, all individuals, businesses and in-house departments in Alberta must be licensed under the *Security Services and Investigators Act (SSIA)* to perform Security services.

Quality: Our priority is to deliver up to date, meaningful information that has real world application for what you do. We believe that the quality of the content in our courses is the best in the industry.

Experience: The trainers have over 20 years of combined experience in safety training...certifying thousands of employees... ensuring that all clients receive the highest caliber training for their respective fields.

Customer Service: It is important to us that our customers get any questions or concerns addressed and resolved quickly. We guarantee that our experienced staff will be accessible to you for any help you may need.

Value: When you consider the quality of our courses...multiple locations & the wide scope of training that we offer... we think you'll find that our products offer excellent value.

Some of the courses that we offer are as follows:

- Alberta Security Course
- H2S Alive
- Standard First Aid
- WHMIS
- Confined Space
- TDG
- Defensive Driving
- Wild Life Awareness
- ATV Rider
